

DARIN PATEL

Software Developer

I am running for school board because I believe I can bring a refreshing change and be a voice for parents and students by advocating for their needs while also being cognizant of our fiscal responsibility to the taxpayers. I have only attended and graduated from schools within Capistrano Unified and have family that still attends school in our district therefore I have a vested interest in providing a safe learning environment and quality education for all students. My experience as a software developer that works with independent contractors has taught me that transparency and communication are critical to making sure everyone's voice is heard. If elected to the board, I hope to expand learning opportunities and access to counselors for students in their college and technical studies. I would be honored to serve you with dedication and have your vote.
