

SEAN GRIFFIN

Teacher

As a public school teacher in my 24th year, and the parent of an Orange Unified graduate who received services for her disability, I have worked with the everyday, real world impact of board decisions.

I want to bring my extensive experience and expertise to the OUSD School Board to work as hard as I can to support student success in a well-rounded education, while preparing them for life's challenges and for future opportunities, whether a career after high school or college bound. In addition to being a teacher for students receiving Special Education services, I have spent years volunteering as a coach, mentor, and student advocate, both within and outside of OUSD. Therefore, I pledge to be student and parent centered and make decisions that continue the progress, improvement, and growth that OUSD has recently enjoyed.

I will be open-minded and collaborative to find solutions to issues our district is confronting, including school safety, structural improvements, and a sensible financial plan.

I am honored to be endorsed by leaders throughout our community, including OUSD Board President Andrea Yamasaki, Orange City Council Member Ana Gutierrez, and many others.

Please vote to keep moving OUSD forward. Vote Sean Griffin for OUSD!
