

**JENNIFER L RICHTER**

**AGE: 54**

Teacher

As a teacher of twenty-three years and counting, I have dedicated my life to my students. I have worked in special education and with mod-sev disabled students in tough urban settings.

I have the experience, dedication, and know what it takes for children to succeed.

As your next school board member, I will ensure our children are taught how to think, not what to think. We need all our students to be critical thinkers ready to handle all the challenges life throws at them.

We must invest in STEM (science, technology, engineering, and math) programs, so our children can compete in a highly competitive global economy.

As a school board member, I answer to you. Representatives should not silence parents' voices. Therefore, I will fight for parental rights and stand up against future lockdowns, masks, and vaccine mandates.

I promise to put your children's education and well-being first. I am here to serve you, not powerful unions or special interest groups.

I would be humbled to have the honor of serving you, our children, and our community as your next school board member.
