

**JON PEAT**

**AGE: 61**

Member of the City Council, City of Cypress

Our family has lived in Cypress for the past 25 years. For the past eight years, I have had the privilege of serving on the Cypress City Council. Working closely with my colleagues on the City Council, I have been able to successfully lead the City through the challenges of the COVID-19 pandemic to position Cypress for a bright and prosperous future.

My term on the City Council will conclude later this year and I hope to continue to serve the community as a Board Trustee for the Cypress School District.

If I am selected, I will use my strategic leadership and management skills to serve the students and families of the Cypress School District to ensure we remain focused on accomplishing the District priorities, such as the implementation of the universal transitional kindergarten program in all schools, providing rigorous core curriculum aligned with the values of our community, promoting innovation and creativity through STEM and music programs, maintaining strong relationships with the community and effectively managing our resources to ensure we remain financially strong and healthy.

I look to continue serving our community. I appreciate your support and thank you for your vote.
