

KENNETH L. WILLIAMS, JR

Member, Orange County Board of Education, Trustee
Area 3

As a father, adjunct clinical professor, and primary care physician, I honor the sacred trust you have placed in me as your current representative on the Orange County Board of Education. I have dedicated my career to helping children and families as a Trustee of the Orange County Department of Education, an Orange County Sheriff Reserve Deputy, and a primary care physician.

My volunteer work includes:

- Serving children and families through medical missionary groups
- Assisting the homeless and women's shelter through the Orange County Rescue Mission
- Protecting student and public safety as a law enforcement officer

Professionally, I am a board certified primary care physician and an Adjunct Clinical Professor of Family Medicine teaching medical students and Residents. I am on staff at St. Joseph Hospital, Hoag Hospital-Newport and Irvine, and Children's Hospital of Orange County.

I am dedicated to improving our children's education, so I will continue to:

- Support "back-to-basics" education in math, reading, science, history, sports, music, and the arts
- Support direct academic instruction and critical thinking skills
- Work to improve education programs for high-risk youth, foster children, and disabled students
- Strengthen education for the children of military service members and veterans

I have been fighting to repair the most critical challenges facing public education, resulting from the failures of State government and unelected bureaucrats in Sacramento, so I will continue to:

- Preserve the innocence of our children by opposing radical sex education curriculums, Critical Race Theory, and "woke" non-academic educational curriculums
- Support programs for children with disabilities and higher education standards by opposing government "one-size-fits-all mandates"
- Strengthen student and school safety-anti-bullying, anti-drug use and anti-fentanyl programs
- Reduce the education gaps caused by the Covid-19 pandemic lockdowns
- Protect Prop 13 and oppose new taxes

I believe education decision-making should be in the hands of Orange County families, not Sacramento or Washington, DC, so I will continue to:

- Promote parental choice and strong charter schools
- Work to guarantee parental rights and empower parental involvement in the classroom
- Strengthen local control of education

With my commitment to improve the education of our children and protect the safety of students, teachers, and staff in our schools, I am honored to have earned the endorsements of:

- Every Member of the Orange County Board of Education
- UC Irvine School of Education Professor Lianne Brouillette
- Orange County Congresswoman Young Kim
- Orange County Congresswoman Michelle Steel
- Orange County Sheriff Don Barnes
- Orange County Supervisor Don Wagner, a former Community College District Board President
- California State Senator John Moorlach (retired)
