

**DAVID JOHNSON****AGE: 55**

School Board Trustee

Stop the political wars in our schools. Stand up to career politicians who have imposed an extreme political agenda and squandered millions of taxpayer funds pursuing frivolous lawsuits.

It's time for new OCBE leadership that prioritizes students, safety, parents, and competitive schools.

I'm an experienced school board president who'll ensure parents have a choice and voice in their child's education. I'm also proud to have the endorsement of thousands of our local classroom teachers.

My priorities:

- The safest schools
- Reducing class sizes
- Giving every child access to a world-class education
- Ensuring all children excel, including those with special needs
- Prioritizing student safety and mental health
- Stopping the wasteful millions squandered on special interest attorneys

As a former University Vice Chancellor, current School Board President, and experienced management and finance executive with two children in public schools, I understand and support parents.

As School Board President, I created a six-year strategic plan for improving school academics, safety, and mental health; hired an award-winning Superintendent; balanced the budget with millions in surplus; and expanded after-school programs and academic interventions.

I believe every student can learn, strive, and thrive in strong schools that build great communities.
