

## Argument in Favor of Measure B

For more than 120 years, AUHSD has developed the future business and civic leaders for Anaheim, Buena Park, Cypress, La Palma, and Stanton. Our outstanding educators have prepared generations of students for college, career, and life success. We want that legacy to continue. Join us - parents, homeowners, business people, educators, retirees, and community leaders - in voting YES on this measure.

The bond's first priority is improving the basic infrastructure needed for school operations. A YES vote will provide the necessary upgrades to building and technology infrastructure.

AUHSD strives to enhance our students' abilities to excel in 21st century skills and obtain high paying jobs. To achieve this goal, students need a safe learning environment. A YES vote will ensure upgrades to this all important area.

Updated facilities will not only prepare students for their future careers but will also help the District attract and retain the award-winning teachers who provide the great education our community needs and deserves.

AUHSD sought input from students, parents, staff, neighbors, and community members regarding the needs of the schools for this initiative. A community colloquium, consisting of 320 people, met and identified the needs for the schools. These identified needs were then formulated into a project list. The project list was created through a process that embraced equity, along with safety and student achievement.

To provide strong fiscal accountability, a Citizens' Oversight Committee will review and ensure that all funds are used only for voter-approved purposes.

Bond funds will benefit every AUHSD campus and every penny will be locally controlled. The bond also qualifies our schools for future state matching funds.

Maintaining and improving school facilities is a community responsibility. Help us strengthen our community and secure our children's educational future - vote YES on this measure.
